**TUTORING**

Research proven, web-based tutoring for below level students in grades 1–8

- Fun and easy-to-use software with detailed guides and support for tutors
- At-home activities reinforce what students learn during the day and allow them to share with parents
- Students are engaged through cooperative peer participation, working in pairs to advance through activities
- Extensive reports track and display progress
- Tutors work with 4 students at a time for 30 minutes each day and usually see 9 groups daily. That’s 36 students each day!

Students in Baltimore City using SFA’s tutoring grew 1.5 years during COVID-19 lockdown.

**Grades 1–3**
- Tutoring activities improve phonemic awareness, phonics, fluency, vocabulary and comprehension

**Grades 4–8**
- Tutoring activities improve overall fluency by concentrating on building vocabulary and comprehension
- Skills addressed throughout the activities are author’s purpose, cause & effect, compare & contrast, drawing conclusions, fact & opinion, main idea, problem & solution, and sequencing.
